Inspiration Statement

A condensed acronym for the phrase, "je ne sais quoi," jn² brings to reality what cannot be easily expressed otherwise. Shrugging away from the expected, jn²'s debut Spring 2015 collection breathes life into a charming childhood pastime, paper dolls by evoking their playful form through textile painting and sculpture. Crafted from hand-painted burlap and shaped with wire, each "doll outfit" is also inspired by French designer Pierre Cardin 's use of vivid color and shape, but through our softer lens. Loopy details along with dreamy and dramatic pops of color make each handcrafted piece a delight for the eyes.
